

Flashpoint Physical Security Intelligence (PSI)

Enhance situational awareness with geo-enriched data and intelligence expertise

Flashpoint PSI delivers geo-enriched data and expert finished intelligence from an extensive, global range of open sources like social media, messaging apps, defense forums, and illicit communities. It enables customers to translate, analyze, and monitor the data to investigate and understand critical events, geopolitical situations, and executive threats.

Benefits

- ✓ **Safeguard people, places, and assets** with increased situational awareness
- ✓ **Extend your team's capacity** with intuitive functionality and intelligence support
- ✓ **Accelerate speed-to-insight** with near-real-time data and analytical tools to cut through the noise quickly and easily

What's included

ECHOSEC, BY FLASHPOINT

Geospatial enrichments: Create a geographic boundary over any location in the world by typing in an address or using map-drawing tools, and immediately see the social media posts originating from—or associated with—that location.

Global translation: Instantly translate search queries in over 100 languages, and add the translated query to your search in just a few clicks.

Actor insights: Quickly generate a profile with key information about a specific internet user including active communities, recent posts, previously linked locations, mentions, and media.

Integrated AI: Condense hours of work into seconds with instant summaries of search results including positive and negative sentiment. Deepen or pivot your investigations with AI-generated search term recommendations.

Analytics and visualization: Observe trends, patterns, and key insights over time in a configurable dashboard. Widgets include Top Authors, Data Sources, and Locations, as well as Threat Score and Results Heatmap.

24/7 monitoring and alerts: Create ongoing searches and review results in an inbox or map view. Get notified via email or webhook when new results match your search criteria.

FINISHED INTELLIGENCE REPORTS

Get **timely intelligence** generated by our team of expert analysts. Viewable in a news-style dashboard or by geographic region, Intelligence Reports provide details on geopolitical regions, ongoing incidents, and threat actors and groups to provide an in-depth picture of today's physical security landscape.

Use **Ignite AI** to ask questions using natural language search and receive answers from Flashpoint Intelligence Reports.

REQUEST FOR INFORMATION

Request and receive information from our intelligence team at the click of a button. Through the RFI process, our intelligence analysts field questions and conduct research inside closed illicit online communities and open sources to provide original, unique analyses.

"The tool allows us to stay up to date with any online threats made against our clients or simply general public discourse surrounding our client's image. We utilize the saved searches feature which include various filters to help us find the most threatening chatter and alert ourselves to any issues that may require immediate attention."
