Available Capabilities

DATA-AS-A-SERVICE

Delivers direct access to near-real-time information via REST API or Firehose enabling seamless integration of Flashpoint data into existing tooling.

GEOSPATIAL OSINT (ECHOSEC)

Gathers geolocated data from dozens of open sources ranging from social media to messaging apps and illicit communities. Search, monitor, analyze, and receive alerts from the data to identify threats to individuals, locations, or assets, and improve situational awareness.

IGNITE PLATFORM

Delivers tailored and actionable intelligence across the deep and dark and surface web, helping you ahead of potential targeted threats like cybercrime, emerging malware, ransomware, and hacktivism.

VULNERABILITY INTELLIGENCE

The most comprehensive vulnerability database and timely source of intelligence available. Allows you to search for and be alerted to the latest vulnerabilities, both in end-user software and third-party libraries and dependencies.

MANAGED ATTRIBUTION

Offers a flexible, fully managed virtual environment that enables analysts to securely conduct internet research. Conceal your digital fingerprint to safely interact with files and browse safely without risk to your network.

PROFESSIONAL SERVICES AND MANAGED INTELLIGENCE

Support options include best-in-industry domain expertise, investigative tradecraft, and multilingual capabilities. Flashpoint services reduce the strain on your organization's resources and help to resolve security issues thoroughly and efficiently.

TRAINING

The Flashpoint Training Academy delivers training on the Flashpoint suite of tools. Our goal is to ensure your team realizes continual value from our tools and is confident in their functionality. We provide introductory, advanced, and customized training in both virtual and in-person environments.
