

Professional Services

Flashpoint is a trusted partner to organizations, helping them shrink time to decision-making while providing an advantage in combating threats and mitigating risk. Flashpoint's Professional Services help organizations reduce the challenges faced by overwhelmed or under-resourced security functions and can accelerate growth in both capability and efficiency for new or expanding teams.

Key Benefits

- ✓ **Accelerate Decision-Making**
As a trusted partner, Flashpoint helps teams make better decisions in less time and provides an advantage in combating threats.
- ✓ **Address All Critical Risks**
Flashpoint works with organizations of all sizes, from newly established security teams to fully integrated global intelligence teams and fusion centers. We can help you start, rebuild, or expand capabilities to optimize your intelligence programs.
- ✓ **Respond Quickly to Evolving Threats**
Rapid response preparedness enables quick action for threat assessment and recovery, as well as supporting activities such as incidents or investigations.
- ✓ **Leverage Industry-Leading Intelligence Experts**
Our team of veteran intelligence professionals partners with you to provide trusted intelligence and solutions that accelerate capability and efficiency.

Professional Service Offerings

Extortion Monitoring

Powered by Flashpoint's extensive, signal-rich collections and alerting engine, Flashpoint's Extortion Monitoring Service delivers real-time automated alerts of identified leaked assets as a result of an extortion incident, providing teams with the necessary insight into the extent of exposure and damage.

Staff Augmentation

Flashpoint provides a full-time dedicated Flashpoint intelligence analyst to serve as an extension of your team. Virtual or on-site support is available.

Threat Response And Readiness

Flashpoint's Threat Response and Readiness service helps companies prepare for, quickly assess, and respond to a ransomware or cyber extortion attack.

- **Response:** Supports teams through an isolated ransomware or cyber extortion incident. Includes tailored response and recovery of internal systems, resources to procure and acquire cryptocurrency on behalf of the impacted organization, and extensive monitoring within our expansive illicit community collections.
- **Readiness (Cyber Extortion Training):** Includes a workshop or tabletop exercise. The workshop is designed to educate teams on how ransomware works, why organizations become infected, the evolution of this threat, profiles of attackers, cryptocurrency, issues related to payments, and other details relevant to the customer organization or vertical. The tabletop exercise brings together critical stakeholders to discuss simulated scenarios, assess current plans' efficacy, clarify roles and responsibilities, and improve coordination to help mitigate future attacks.

Threat Actor Engagement and Procurement

Flashpoint anonymously and securely engages with threat actors on your behalf. Our team can coordinate a threat actor engagement to identify the possible source of the material or data, validate the information, purchase or otherwise obtain the specific data, and arrange for any other communications with the actors.

About Flashpoint

Flashpoint is the leader in threat data and intelligence. We empower mission-critical businesses and governments worldwide to decisively confront complex security challenges, reduce risk, and improve operational resilience amid fast-evolving threats. Through the Flashpoint Ignite platform, we deliver unparalleled depth, breadth and speed of data from highly relevant sources, enriched by human insights. Our solutions span cyber threat intelligence, vulnerability intelligence, geopolitical risk, physical security, fraud and brand protection. The result: our customers safeguard critical assets, avoid financial loss, and protect lives.
